The Kansas seedlings are doing well this year. All planters know the crop in France is very short and the cost is high. With the price of Apple trees still up, and apparently up to stay for a while, there will not be many unsold seedlings around Topeka this winter. We can promise our friends absolutely clean seedlings graded up to the highest Topeka standard. If you expect to do some grafting this winter or to plant some seedlings next spring, we want to hear from you.
